

CC102

Compact LV

APPROACHABLE,
STRIKING &
VERSATILE

Nestled quietly within the heart of Monaco is our small, but perfectly formed factory, hand-crafting espresso machines since 1956. We combine genuine passion for innovation and coffee excellence, with exceptional quality and reliability to produce the finest machines for any circumstance or environment.

CC102

Compact LV

The CC102 Compact LV is a fantastic machine designed for the serious Barista to create perfect drinks time and time again.

At Conti we recognise that not everyone is an experienced barista and sometimes, a little technological help can be useful. An area that can sometimes create inconsistencies in drink quality, is the texturing process of fresh milk. To help, we have developed our 'EASYTEAM' system, which helps the aspiring barista get control over their milk texturing and gives time to focus on their espresso or just making the customer feel special.

Adjustable Temperature Using P.I.D.

Control espresso extraction temperature and perfectly match machine to bean, to encourage consistency and give results, shot after shot.

Tall Cup

No matter which configuration you choose, the CC100 is available in Tall Cup format at no additional cost, making takeaway service simple and efficient.

EASYTEAM System

The EASYTEAM system has 2 programmable settings, designed to deliver the perfect textures for both Cappuccino and Latte. Packaged with a temperature sensor the system is set to deliver consistency across the two key variables in milk quality.

Additional Features:

Display Option

The display offers diagnostics and real time user information such as service reminders and boiler temperatures.

Eco Mode

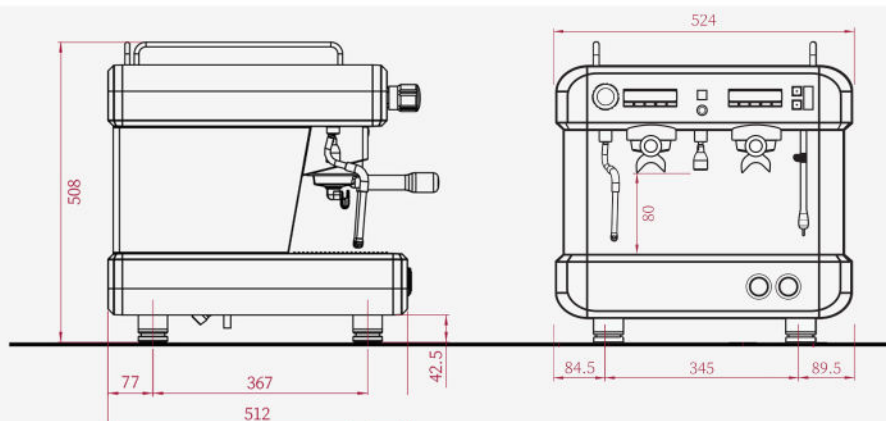

Utilising our Eco mode, reduce your power consumption by up to 40% overnight or when closed.

Auto Cleaning

Never use a dirty machine again, simple to operate, helps to ensure your machine is 'always sparkling clean'.

Compact Model

Designed to squeeze into tight spaces whilst still packing a massive punch of performance.
